## BASE CLOSURE AND REALIGNMENT

### 1995 COMMISSION U.S. Air Force Overview

**Schedule/Mission Impact:** The following schedule was developed to minimize the impact on Air Force mission capability while placing priority on closing or realigning the bases as recommended by the 1995 Base Closure Commission and directed by the Defense Base Closure and Realignment Act, P.L. 101-510. It is the Air Force's objective to close and realign the bases as recommended at the earliest opportunity to take advantage of savings provided by reductions to Air Force end strength, reductions to base operating support costs, and where applicable, proceeds from the sale of real property at closure bases. The Air Force topline has been reduced by the savings associated with this closure round. While we expect the actions at McClellan and Kelly to produce savings, it is not clear how soon these savings will materialize. As a result, no savings are identified specifically to the depots until uncertainties are resolved and reasonable estimates are possible. We plan industry days at each depot to provide the Air Force initial information about industry interest and capability to perform depot workloads. Over the next several months we will work with this and other information to develop savings estimate and we will include these estimates in subsequent justification materials. At the end of this section, we have provided a summary chart which reflects the total costs for the BRAC 95 closures/realignments. Costs for the non-depot portion across the FYDP is \$539M which includes funds for a fast track clean-up of these installations. Also included is a chart reflecting the personnel phasing assumptions incorporated into the costs for the two depots. These numbers reflect our best estimate on personnel impacts given the uncertainties of industry's response to our workload. The requirements generated by the 1995 Base Closure Commission changes to previous Base Closure Commission recommendations are included in the 1993 section of the budget estimates.

**FY 1996:** Base Closure Account requirement: \$93.5 Million. Air Force requirements for FY 1996 consisted of preliminary planning, designing and initiating military construction projects associated with the realignments of Malmstrom, Homestead, and O'Hare to accommodate the movement of units into gaining locations. Funding was also necessary for environmental compliance and restoration actions to meet requirements of the National Environmental Policy Act at each closure/realignment location, especially Onizuka and Reese AFBs, for family housing, operation and maintenance, and military personnel PCS mainly at Malmstrom and Reese.

**Bergstrom:** Base Closure Account requirement: \$1.4 Million.

The majority of this funding is due to operation and maintenance costs and environmental requirements.

**Eglin:** Base Closure Account requirement: \$0.1 Million

There are no planned BRAC costs associated with Eglin in FY 1996.

**Grand Forks:** Base Closure Account requirement: \$0.0 Million

**Griffiss 485th:** Base Closure Account requirement: \$0.1 Million

The funding consists of operations and maintenance requirements.

EXHIBIT BC-01

**Griffiss 10th:** Base Closure Account requirement: \$0.02 Million

The funding consists of O&M requirements and environmental compliance and restoration.

**Hill:** Base Closure Account requirement: \$0.1 Million.

The funding is a result of operation and maintenance costs.

**Homestead 301st:** Base Closure Account requirement: \$0.5 Million

The funding is a result of operation and maintenance costs.

**Homestead 726th** Base Closure Account requirement: \$0.3 Million

This funding consists of operations and maintenance, and military personnel PCS.

**Lowry:** Base Closure Account requirement: \$1.2 Million

The funding is for funding of operations and maintenance, environmental compliance and restorations and military personnel PCS.

**Kelly:** Base Closure Account requirement: \$9.0 Million

The funding is for operation and maintenance costs.

**Malmstrom:** Base Closure Account requirement: \$9.2 Million

The funding is for military constructions, operation and maintenance, environmental requirements, and military personnel PCS.

**McClellan:** Base Closure Account requirement: \$27.3 Million

The funding is for operation and maintenance.

**O'Hare:** Base Closure Account requirement: \$10.7 Million

The funding is for operation and maintenance.

**Onizuka:** Base Closure Account requirement: \$3.2 Million

The funding is for operation and maintenance, as well as environmental requirements.

**Ontario:** Base Closure Account requirement: \$0.7 Million

The funding is for operation and maintenance, as well as environmental requirements.

**REDCAP:** Base Closure Account requirement: \$0.1 Million

The funding is for environmental requirements.

**Reese:** Base Closure Account requirement: \$11.9 Million

The funding is for operation and maintenance, environmental, and military personnel PCS.

**Roslyn:** Base Closure Account requirement: \$0.6 Million

The funding is for military construction, operation and maintenance, and environmental requirements.

**Program Management:** \$17.1 Million

Funding is for planning and design for military construction, and operation and maintenance.

EXHIBIT BC-01

**FY 1997:** Base Closure Account requirement: \$209.7 Million. The 1995 Commission recommendations for Bergstrom, the 485th portion of Griffiss redirect, Hill, and Homestead (301st and 626th) are scheduled for completion this year. Air Force requirements for FY 1997 consist of \$76.6M in military construction projects, the majority of which support the realignments of Griffiss and Malmstrom as well as the redirect on Homestead. Environmental requirements, operations and maintenance, and military personnel PCS.

**Bergstrom:** Base Closure Account requirement: \$6.7 Million.

The funding is due to environmental restoration at Bergstrom and military construction in support of the move of 10th Air Force Headquarters (AFRES) to NAS Ft. Worth.

**Eglin:** Base Closure Account requirement: \$1.5 Million

The funding is due to operation and maintenance requirements.

**Grand Forks:** Base Closure Account requirement: \$0.0 Million

The funding is due to operation and maintenance, and military personnel PCS.

**Griffiss 485th:** Base Closure Account requirement: \$2.9 Million

The funding consists of operations and maintenance requirements, and a small amount of military construction.

**Griffiss 10th:** Base Closure Account requirement: \$46.7 Million

The funding consists of \$46.0M in military construction supporting the move of the 10th Mountain Division to Ft. Drum as well as a small amount for operations and maintenance, and environmental compliance and restoration.

**Hill:** Base Closure Account requirement: \$0.2 Million.

The funding is a result of military personnel PCS.

**Homestead 301st:** Base Closure Account requirement: \$5.9 Million

The funding consists totally of military construction requirements.

**Homestead 726th** Base Closure Account requirement: \$0.0 Million

**Lowry:** Base Closure Account requirement: \$1.0 Million

The funding is for operation and maintenance and environmental requirements.

**Kelly:** Base Closure Account requirement: \$18.3 Million

The funding is for operation and maintenance, environmental compliance and restoration, and military construction.

**Malmstrom:** Base Closure Account requirement: \$14.3 Million

The funding is for construction, operation and maintenance, as well as procurement.

**McClellan:** Base Closure Account requirement: \$42.7 Million

The funding includes Homeowners Assistance Program, construction and environmental requirements.

**O'Hare:** Base Closure Account requirement: \$7.7 Million

The funding is for operation and maintenance, as well as environmental requirements.

EXHIBIT BC-01

**Onizuka:** Base Closure Account requirement: \$8.5 Million  
The funding is for operation and maintenance, environmental requirements, and military personnel PCS.

**Ontario:** Base Closure Account requirement: \$3.0 Million  
The funding is for construction, operation and maintenance, and environmental requirements.

**REDCAP:** Base Closure Account requirement: \$1.9 Million  
The funding is for construction, operation and maintenance, and environmental requirements.

**Reese:** Base Closure Account requirement: \$31.6 Million  
The funding is for military construction, operation and maintenance, environmental requirements as well as Homeowners Assistance Program.

**Roslyn:** Base Closure Account requirement: \$4.4 Million  
The funding includes \$8.0M in military construction, operation and maintenance funds, environmental requirements, and military personnel PCS.

**Program Management:** \$12.4 Million  
Funding was for planning and design for military construction and operation and maintenance.

**FY 1998:** Base Closure Account requirement: \$357.9 Million. The 1995 Commission recommendations for Eglin, Lowry, and Malmstrom are scheduled for completion this year. Funding is due to military construction, environmental, operation and maintenance, military personnel PCS, and procurement.

**Bergstrom:** Base Closure Account requirement: \$0.0 Million.

**Eglin:** Base Closure Account requirement: \$4.6 Million  
The funding is due to operation and maintenance requirements.

**Grand Forks:** Base Closure Account requirement: \$0.0 Million  
The funding is due to military construction, and operation and maintenance.

**Griffiss 485th:** Base Closure Account requirement: \$0.0 Million

**Griffiss 10th:** Base Closure Account requirement: \$2.0 Million  
The funding consists of military construction, and operations and maintenance requirements.

**Hill:** Base Closure Account requirement: \$0.0 Million

**Homestead 301st:** Base Closure Account requirement: \$0.0 Million

**Homestead 726th:** Base Closure Account requirement: \$0.0 Million

**Lowry:** Base Closure Account requirement: \$0.1 Million  
Their is ten thousand dollars set aside for environmental requirements.

**Kelly:** Base Closure Account requirement: \$67.1 Million  
The funding is for military construction, operation and maintenance and environmental requirements.

**Malmstrom:** Base Closure Account requirement: \$0.1 Million  
The funding is for operation and maintenance.

**McClellan:** Base Closure Account requirement: \$163.0 Million  
The funding includes \$67 million in military construction, \$43 million for operation and maintenance and \$30 million for environmental requirements.

**O'Hare:** Base Closure Account requirement: \$0.8 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**Onizuka:** Base Closure Account requirement: \$62.4 Million  
The funding includes \$25.9M for military construction, \$4.6M for environmental and \$39.6M amount for operation and maintenance.

**Ontario:** Base Closure Account requirement: \$4.3 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**REDCAP:** Base Closure Account requirement: \$1.0 Million  
The funding is for operation and maintenance.

**Reese:** Base Closure Account requirement: \$30.1 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**Roslyn:** Base Closure Account requirement: \$10.2 Million  
The funding was for operation and maintenance, as well as environmental requirements.

**Program Management:** \$16.4 Million  
Funding is for military construction and operation and maintenance requirements.

---

**FY 1999:** Base Closure Account requirement: \$260.0 Million. The 1995 Commission recommendations for Eglin, Lowry, and Malmstrom are scheduled to be completion this year. Funding is for military construction, operation and maintenance as well environmental and procurement.

**Bergstrom:** Base Closure Account requirement: \$0.0 Million.

**Eglin:** Base Closure Account requirement: \$0.0 Million

**Grand Forks:** Base Closure Account requirement: \$0.0 Million  
The funding is due to operation and maintenance, requirements.

**Griffiss 485th:** Base Closure Account requirement: \$0.0 Million

**Griffiss 10th:** Base Closure Account requirement: \$2.1 Million  
The funding consists of operations and maintenance requirements.

**Hill:** Base Closure Account requirement: \$0.0 Million

**Homestead 301st:** Base Closure Account requirement: \$0.0 Million

**Homestead 726th:** Base Closure Account requirement: \$0.0 Million  
EXHIBIT BC-01

**Lowry:** Base Closure Account requirement: \$0.0 Million

**Kelly:** Base Closure Account requirement: \$90.2 Million  
The funding includes \$68.2M for military construction, \$40.3M for operations and maintenance requirements and \$4.9M for environmental requirements.

**Malmstrom:** Base Closure Account requirement: \$0.0 Million

**McClellan:** Base Closure Account requirement: \$87.4 Million  
The funding includes environmental, operations and maintenance, and military construction requirements.

**O'Hare:** Base Closure Account requirement: \$4.1 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**Onizuka:** Base Closure Account requirement: \$28.9 Million  
The funding includes \$22M for operation and maintenance, as well as environmental requirements.

**Ontario:** Base Closure Account requirement: \$1.6 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**REDCAP:** Base Closure Account requirement: \$1.0 Million  
The funding is for operation and maintenance.

**Reese:** Base Closure Account requirement: 30.6 Million  
The funding includes \$17.3M for environmental requirements as well as \$3.4M for operation and maintenance requirements.

**Roslyn:** Base Closure Account requirement: \$1.3 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**Program Management:** \$12.9 Million  
Funding is for operation and maintenance requirements.

**FY 2000:** Base Closure Account requirement: \$229.8 Million. The 1995 commission recommendations for Grand Forks, Ontario, and Roslyn are scheduled to be completed this year. Funding is due to military construction, environmental, operation and maintenance, and procurement.

**Bergstrom:** Base Closure Account requirement: \$0.0 Million.

**Eglin:** Base Closure Account requirement: \$0.0 Million

**Grand Forks:** Base Closure Account requirement: \$0.0 Million  
The funding is due to operation and maintenance, requirements.

**Griffiss 485th:** Base Closure Account requirement: \$0.0 Million

**Griffiss 10th:** Base Closure Account requirement: \$2.4 Million  
The funding consists of environmental requirements.

**Hill:** Base Closure Account requirement: \$0.0 Million  
EXHIBIT BC-01

**Homestead 301st:** Base Closure Account requirement: \$0.0 Million

**Homestead 726th:** Base Closure Account requirement: \$0.0 Million

**Lowry:** Base Closure Account requirement: \$0.0 Million

**Kelly:** Base Closure Account requirement: \$78.6 Million  
The funding includes \$28.4M for military construction, \$42.0M for operation and maintenance, \$2.5M for military personnel PCS and \$5.6M for environmental requirements.

**Malmstrom:** Base Closure Account requirement: \$0.0 Million

**McClellan:** Base Closure Account requirement: \$110.1 Million  
The funding includes \$3.2M for military construction, \$64.7M for operation and maintenance, \$38.7M for environmental and \$3.5M for military personnel PCS.

**O'Hare:** Base Closure Account requirement: \$3.0 Million  
The funding is for operation and maintenance as well as environmental requirements.

**Onizuka:** Base Closure Account requirement: \$8.4 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**Ontario:** Base Closure Account requirement: \$0.3 Million  
The funding is for environmental requirements.

**REDCAP:** Base Closure Account requirement: \$0.0 Million

**Reese:** Base Closure Account requirement: \$17.3 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**Roslyn:** Base Closure Account requirement: \$0.3 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**Program Management:** \$9.4 Million  
Funding is for operation and maintenance requirements.

**FY 2001:** Base Closure Account requirement: \$449.4 Million. All the closure and realignment recommendations of the 1995 Commission are scheduled to be completed. Environmental restoration will continue until completion. Funding is for operations and maintenance, military construction and procurement.

**Bergstrom:** Base Closure Account requirement: \$0.0 Million.

**Eglin:** Base Closure Account requirement: \$0.0 Million

**Grand Forks:** Base Closure Account requirement: \$0.0 Million  
The funding is due to operation and maintenance requirements.

**Griffiss 485th:** Base Closure Account requirement: \$0.0 Million

EXHIBIT BC-01

**Griffiss 10th:** Base Closure Account requirement: \$1.4 Million  
The funding consists of environmental requirements.

**Hill:** Base Closure Account requirement: \$0.0 Million

**Homestead 301st:** Base Closure Account requirement: \$0.0 Million

**Homestead 726th:** Base Closure Account requirement: \$0.0 Million

**Lowry:** Base Closure Account requirement: \$0.0 Million

**Kelly:** Base Closure Account requirement: \$217.2 Million  
The funding includes \$18.7 for military construction, \$192.7M for operation and maintenance and \$5.8M for environmental requirements.

**Malmstrom:** Base Closure Account requirement: \$0.0 Million

**McClellan:** Base Closure Account requirement: \$188.0 Million  
The funding includes \$152.7M for operation and maintenance, and \$35.3M for environmental requirements.

**O'Hare:** Base Closure Account requirement: \$1.6 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**Onizuka:** Base Closure Account requirement: \$17.4 Million  
The funding is for operation and maintenance, as well as environmental requirements.

**Ontario:** Base Closure Account requirement: \$0.1 Million  
The funding is for environmental requirements.

10. Description of Proposed Construction: A new headquarters facility for the 10 AF to be located at NAS Ft Worth. Project will include concrete block exterior wall with brick and stucco, standing seam metal roof, plumbing, electrical, and HVAC works. All required utilities will be installed and connected to existing hookups. Comprehensive Interior Design is part of this design concept. Air Conditioning: 140 KW.					
11. REQUIREMENT: 2,600 SM ADEQUATE: 0 SUBSTANDARD: 0 PROJECT: Base Closure- Provide a Numbered Air Force Headquarters REQUIREMENT: Provide an adequately sized and functionally configured space to satisfy all training, storage, and administrative functions for the 10th AF. CURRENT SITUATION: The 1995 Base Realignment and Closure Commission recommended the closure of Bergstrom ARF and the relocation of the 10th AF to NAS Ft Worth. There are no available facilities at NAS Ft Worth to locate this headquarters. IMPACT IF NOT PROVIDED: Headquarters 10th AF would not be relocated as directed and assigned personnel would not have adequate facilities to perform their functions. ADDITIONAL: Funding is to be provided from the Base Closure Account. There is no criteria/scope specified in Part II of Military Handbook 1190, "Facility Planning and Design Guide". All known alternative options were considered during development.

10. Description of Proposed Construction: Construct a facility with concrete foundation/flooring, steel framework, masonry walls, and standing seam metal roof to meet base architectural compatability standards. Construction includes all necessary utilities and support items.				
11. REQUIREMENT: 695 SM ADEQUATE: 0 SUBSTANDARD: 0 PROJECT: Base Closure: Security Police Training Facility REQUIREMENT: The Base realignment and Closure Commission directed the closure of Bergstrom ARB requiring the relocation of the 610th Security Police Squadron to Ft Worth Joint Reserve Base. Facilities are required to train a reserve police unit in their wartime taskings of providing security for deployable aircraft, airbase security, and combat defense systems. Storage of deployable and home station training equipment is essential. CURRENT SITUATION: The unit must relocate to another DOD installation which can provide a training area and storage facilities for firearms and munitions associated with security police training. IMPACT IF NOT PROVIDED: The unit will not have adequate facilities upon relocation which will negatively impact their ability to fully augment the active force under activation conditions. ADDITIONAL: Funding is to be provided from the Base Closure Account. There is no scope/criteria for this project in Part II of the Military handbook 1190, "Facility Planning and Design Guide."

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U.S. Air Force/Griffiss Airfield Support 10th Inf Light Division, New York**

**Closure Package:** Griffiss Airfield Support 10th Inf Light Division, New York, will close the minimum essential airfield and provide mobility/contingency/training support to the 10th Infantry (Light) Division from the Fort Drum Airfield in FY 1996 through 1998.

**One Time Implementation Costs:**

Military Construction:

FY 1997

<u>State/Installation</u>	<u>Project Title/#</u>	<u>Fiscal Year of Award</u>	<u>Amount (\$000)</u>
New York/Ft Drum	Runway/Apron/WOXG959609	1997	46,000
Total 1997			46,000

Conjunctively-Funded Construction: N/A

Family Housing Construction: N/A

Family Housing Operations: N/A

Operation and Maintenance: \$0.3 Million

Military Personnel - PCS: N/A

Other Procurement: N/A

Revenues from Land Sales: N/A

Environmental: \$0.3 Million

**Savings:** Savings identified are generated by no longer operating the installation. They are included in BC-02 for display purposes only, and will be realized in other Air Force appropriations.

10. Description of Proposed Construction: Remove concrete runway and construct a new 10000 ft by 150 ft concrete runway with 25 ft shoulders and 1000 ft overruns, airfield lighting and signage, and stormwater systems. Construct a 75 ft wide concrete aircraft turnaround. Construct a 700 ft by 1950 ft concrete parking apron with 25 ft shoulders. Includes deicing pad, lighting, oil/water spearator, taxiways, and grounding					
11. REQUIREMENT: As required. PROJECT: Base Closure- Construct Runway, Parking/Turnaround Apron, and ILS REQUIREMENT: The closure of Griffiss Minimum Essential Airfield and relocation of the contingency/training/mobility support requirements of the 10th Mountain Infantry Division to the Ft Drum Airfield as directed by the 1995 Base Realignment and Closure process requires the construction of a new runway, parking apron, taxiways, an aircraft turnaround, and associated lighting and environmental controls. A new Instrument Landing System is also required for the new runway. Provide foundation, transformers, electrical connections, and equipment necessary for both ends of Rw 03/21. Preparation of the site and appropriate ulitivity upgrades are required. Provide clearing and grubbing, grading, and a new drainage system. Relocate 13.2 KV electrical service underground. Provide for environmental system for deicing apron and oil water separator for apron. Provide runway and apron drainage culverts and catch basins. CURRENT SITUATION: The runway at Ft Drum is only 5000 ft long. It can not support the larged sized military aircraft, the charter commercial carge aircraft such as the B-747, and other CRAF aircraft that are needed to deploy the 10th Mountain Infantry Division personnel and equipment. An area for loading and off loading of munitions is required. All associated

<p>pavements and utilities are required to support the construction of a new runway. The construction of a new runway will require the addition of a new CAT 1 ILS for aircraft to effectively use the airfield. Land is available for the construction of a runway; however, the area needs to be cleared and utilities extended.</p> <p><u>IMPACT IF NOT PROVIDED:</u> Unable to provide timely support to the 10th Mountain Infantry Division from Ft Drum thereby delaying deployments and contingency operations. More expensive and high risk workarounds will be required such as the use of the commercial airfield at Hancock Field, Syracuse or the required continued use of Griffiss.</p> <p><u>ADDITIONAL:</u> Funding is to be provided from the Base Closure Account. This project meets the criteria/scope specified in Part II of Military Handbook 1190, "Facility Planning and Design Guide". A certificate of exception has been prepared as this represents the only reasonable option for accomplishing this project and mission.</p>

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION  
U.S. Air Force/Hill Air Force Base Test and Training Range, Utah**

**Closure Package:** The Commission recommended realigning Hill Air Force Base Test and Training Range, Utah in 1996/97. The Utah Test and Training Range will be disestablished. Some armament/weapons Test and Evaluation (T&E) workload will transfer to the Air Force Development Test Center (AFDTC), Eglin AFB, Florida, and the Air Force Flight Test Center (AFFTC), Edwards AFB, California.

**One Time Implementation Costs:**

Military Construction: N/A

Conjunctively Funded Construction: N/A

Family Housing Construction: N/A

Family Housing Operations: N/A

Operation and Maintenance: \$0.1 Million.

Military Personnel - PCS: \$0.1 Million

Other Procurement: N/A

10. Description of Proposed Construction: construct a building with training space, storage, and administrative areas. Work includes all necessary utilities, pavements, site adaptation, and support. Air Conditioning: 20 KW.					
11. REQUIREMENT: 2,325 SM ADEQUATE: 375 SM SUBSTANDARD: 465 SM PROJECT: Base Closure- Pararescue Training Facility REQUIREMENT: Realignment of 301st Rescue Sq from Homestead AFB to Patrick AFB means that an adequately sized facility is required to provide training, storage, and administrative space for this mission. CURRENT SITUATION: The 301st Rescue Sq has been temporarily housed at Patrick AFB since a hurricane demolished Homestead AFB. The existing active duty pararescue facility (Bldg 624) at Patrick AFB is inadequate and improperly configured to support the long term requirements of the 301st Rescue Sq. The existing facility was not designed for pararescue mission assigned to the 301st Rescue Sq and is only in temporary use by active duty forces. Use of this facility more adequately fits the Life Support and Loadmaster faciility shortfalls. The Reserve pararescue manpower requirement is 55 versus 32 personnel for active forces. No other facilities on base meet needs. IMPACT IF NOT PROVIDED: Failure to accomplish this project would result in inadequate support of the relocation and permanent beddown of the 301st Rescue Sq. The unit can not continue to perform in the temporary area as the host has programmed other functions into the facility. ADDITIONAL: Funding is to be provided by the Base Closure Account. There is no scope/criteria for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide".

10. Description of Proposed Construction: Provide minor alteration to accommodate MSL function, pneudraulics shop, electrical/environmental shop and equipment storage and NDI functions. Also provide for munitions storage to support chaff and flares. Includes all necessary alterations to utilities.					
11. REQUIREMENT: 1,350 SM ADEQUATE: 0 SUBSTANDARD: 635 SM PROJECT: Base Closure- Alter five miscellaneous shops REQUIREMENT: Realignment of the 301st Air Rescue Squadron from Homestead AFB to Patrick AF. Renovate area in Bldg 750, 632, and 1433 to accommodate C-130 aircraft and HH-60 aircraft at Patrick AFB. Adequate and properly configured space is required for maintenance and inspection shops and Dash-21 equipment. CURRENT SITUATION: The 301 Rescue Sq has been temporarily housed at patrick AFB since a hurricane demolished Homestead AFB. Existing facilities are inadequate in size and configuration to support the requirements for permanent use by the 301 Rescue Sq. A lack of adequate space requires a second shift in some shops and creates unsafe working conditions. A flare and chaff facility is required for aircraft defense systems installed on the aircraft. An existing facility cannot be altered to meet mission requirements. IMPACT IF NOT PROVIDED: Failure to accomplish this project would result inadequate support for relocation from Homestead AFB. It would also affect the unit's ability to respond fully to war and peace time missions. ADDITIONAL: Funding is to be provided by the Base Closure Account. There is no scope/criteria for this project in Part II of the Military Handbook 1190, "Facility Planning and Design Guide".

TOTAL REQUEST					2,755
TOTAL REQUEST (ROUNDED)					2,750
10. Description of Proposed Construction: Upgrade ventilation, electrical and fire protection systems in existing facility. Construct an addition that provides a fully enclosed facility and alteration of administration space for fuels systems repair.					
11. REQUIREMENT: 2,250 SM ADEQUATE: 0 SUBSTANDARD: 1,490 SM PROJECT: Base Closure- Add interior systems and construct an aircraft corrosion control and fuel systems maintenance dock. REQUIREMENT: Realignment of the 301st Rescue Sq from Homestead AFB to Patrick AFB. A facility that meets current environmental standards is required to perform aircraft corrosion control and fuel systems maintenance for C-130 aircraft. There are no other facilities on the base that can meet this requirement. CURRENT SITUATION: The 301st Rescue Sq has been temporarily housed at Patrick AFB since a hurricane demolished Homestead AFB. The existing facility being used for fuel system and corrosion control is inadequate and in violation of OSHA and fire regulations. Lack of facilities will require some corrosion control activities to be conducted on the apron in a salt mist environment. During inclement weather, repairs on aircraft can not be accomplished. IMPACT IF NOT PROVIDED: Failure to accomplish this project would result in inadequate support of corrosion and fuel cell repairs for the assigned aircraft. Increased depot maintenance cost will result and extensive corrosion will jeopardize unit's ability to meet peace and war time mission. ADDITIONAL: Funding is to be provided by the Base Closure Account. There is no scope/criteria for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide".

10. Description of Proposed Construction: Alter facilities including minor interior wall and door relocations, security for the Command Post, and all required utility support. Includes relocating the Services Squadron and Disaster Preparedness.					
11. REQUIREMENT: As required. PROJECT: Alter facilities in support of KC-135 realignment from Malmstrom AFB to MacDill AFB due to BRAC 95. REQUIREMENT: Hangar 4 will be occupied by the Life Support function of the Squadron Operations/Aircraft Maintenance Unit (Sq Ops/AMU). The Operations Support Squadron, Combat Crew Communications, and the Command Post, including an uninterruptible power supply (UPS), will move into Bldg 54. The occupation of Bldg 53 by the Air Refueling Group will displace two units. Disaster Preparedness will relocate into existing vacant space in Bldg 526 that will require alterations. For the Services Squadron, alterations will be made to Bldg 145. CURRENT SITUATION: These buildings were not built for the functions performed by KC-135 personnel. These facilities need to be renovated to enable each unit to effectively accomplish its mission. IMPACT IF NOT PROVIDED: Lack of adequate facilities for KC-135 personnel will erode morale and reduce efficiency and safety of KC-135 operations and maintenance. This would result in degradation of mission capabilities. ADDITIONAL: Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide." A preliminary analysis of reasonable options for accomplishing this alteration project was done. It indicates alteration is the only option that will meet

10. Description of Proposed Construction: Alter existing fighter aircraft maintenance hangar (Hangar 1) into a KC-135 corrosion control facility. Includes new ventilation and environmental filtration system complete with all associated utilities and a washrack. Provides Aqueous Film Forming Foam (AFFF) fire suppression system. Upgrades some backshops and maintenance support offices.					
11. REQUIREMENT: As required.					
PROJECT: Alter KC-135 corrosion control facility including maintenance backshops and logistics support squadron offices.					
REQUIREMENT: An adequate corrosion control facility is required to support the beddown of the KC-135 relocation from Malmstrom AFB to MacDill AFB as a result of BRAC 95. An adequate facility provides for scheduled corrosion control and abatement procedures to include corrosion treating and repair, paint stripping and repainting the entire aircraft. A washrack with a runoff collection, bead blaster, paint booths and drying areas are needed. Mechanical controls, fire detection, alarm, and suppression systems, electrical, and compressed air outlets are required to support mission requirements and provide a safe working environment. Shop space includes the Jet Engine Intermediate Maintenance Shop, Refurbishment Shop, Wheel and Tire Shop, and Environmental Electric Shop.					
CURRENT SITUATION: There are no hangars at MacDill AFB that are sized or configured for KC-135 aircraft. All hangars include insufficient lighting, electrical and mechanical systems, a lack of storage and properly configured maintenance space, as well as fire detection, alarm and suppression systems.					
IMPACT IF NOT PROVIDED: If this facility were not altered, corrosion control maintenance of the KC-135 aircraft could not be accomplished at

10. Description of Proposed Construction: Add to and alter an existing fighter aircraft fuel cell to accomodate KC-135s. Upgrade existing utilities and extend into the new addition. Provide an Aqueous Film Forming Foam (AFFF) fire supression system. Add pavement to allow for towing of KC-135s into the facility.				
11. REQUIREMENT: 2,630 SF ADEQUATE: 0 SUBSTANDARD: 1,524 SF PROJECT: Add to and alter aircraft fuel systems maintenance facility (Bldg 1071). REQUIREMENT: This project is needed to support the relocation of KC-135 aircraft from Malmstrom AFB to MacDill AFB due to BRAC 95. A facility capable of providing sufficient height and width clearance to allow fuel cell maintenance on the KC-135 aircraft is required. This facility will allow fuel systems maintenance to be performed in a safe and climate controlled environment. CURRENT SITUATION: The current fuel cell at MacDill AFB was constructed for fighter aircraft and will need modifications and an addition to accommodate a KC-135 aircraft. IMPACT IF NOT PROVIDED: If this facility were not added to and altered fuel systems maintenance on the KC-135 aircraft would be negatively impacted. Maintenance personnel would be forced to perform fuel cell work on the open ramp, posing a hazard to personnel, aircraft and the environment. ADDITIONAL: Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide." An economic analysis has been prepared comparing the alternatives of new construction, and adding to and altering the existing facility. Based on the net present

10. Description of Proposed Construction: Alter maintenance facilities including aerospace ground equipment (AGE), fuel dispensing pumps, nondestructive inspection (NDI) shop, and sheet metal shop.					
11. REQUIREMENT: As required.					
PROJECT: Alter existing maintenance facilities for AGE (Bldg 552), sheet metal shop (Hangar 3), and NDI (Bldg 14) to accommodate the KC-135 mission from Malmstrom AFB to MacDill AFB based on BRAC 95.					
REQUIREMENT: Adequate facilities are necessary for the AGE, NDI and other maintenance personnel to support the KC-135 mission. Provide special requirements for AGE, including environmental controls and ventilation system, and a fueling facility with both diesel and jet fuel. Adequate electrical and compressed air service ports to maintain and repair AGE equipment is also required.					
CURRENT SITUATION: The existing AGE (Bldg 552), NDI (Bldg 14) and sheet metal shop (Hangar 3) facilities were originally constructed 36 years ago and have been unoccupied since the fighter mission left in 1993. Some upgrade is required to provide the KC-135 personnel adequate facilities in which to work.					
IMPACT IF NOT PROVIDED: The KC-135 maintenance personnel will not have adequate facilities to maintain/repair equipment, and store tools, equipment and parts.					
ADDITIONAL: Funding is to be provided from the Base Closure Account. There is no criteria/scope specified in Part II of Military Handbook 1190, "Facility Planning and Design Guide."

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U. S. Air Force/O'Hare IAP Air Reserve Station, Illinois**

**Closure Package:** The Commission recommended O'Hare IAP Air Reserve Station, Illinois, for closure by 1999. Deactivate the 928th Airlift Wing (AFRES) and redistribute aircraft to Dobbins ARB, George and Peterson AFB, Colorado. Close O'Hare IAP Air Reserve Station as proposed by the City of Chicago; relocate the 126th Air Refueling Wing (ANG) to Scott AFB, Illinois provided the City of Chicago can demonstrate that it has financing in place to cover the full cost of replacing facilities, environmental impact analyses, moving, and any added costs of environmental cleanup resulting from higher standards or a faster schedule than DoD would be obligated to meet if the base did not close, without any cost whatsoever to the Federal Government.

**One Time Implementation Costs:**

Military Construction: N/A

Conjunctively Funded Construction: N/A

Family Housing Construction: N/A

Family Housing Operations: N/A

Military Personnel - PCS: N/A

Operation and Maintenance: \$7.5 Million

Other Procurement: N/A

10. Description of Proposed Construction: Alteration of Bldgs 1203 and 2316. Relocate and extend interior walls. Modify and extend interior utility and communication systems. Construction of a pre-engineered metal covered building and associated pavement, utilities, and site work. Alteration of Bldg 1213 for displaced AFRES Disaster Preparedness function by modification to interior walls. Air Conditioning: 53 KW.					
11. REQUIREMENT: 4,115 SM ADEQUATE: 0 SUBSTANDARD: 3,520 SM PROJECT: Base Closure- ADAL Communication/Electronic Training Complex REQUIREMENT: The closure of Ontario International Airport AGS through Base Realignment and Closure process (1995) requires the relocation of the 148th Combat Communications Squadron and the 210th Weather Flight to March ARB. The units require a properly configured and adequately sized facility to support the day to day operations and training requirements. CURRENT SITUATION: A site survey conducted in Mar 95 has determined that Bldg 1203 on March ARB can be modified to meet the requirements of the communications squadron. Some interior room configuration is required. The building does not have a covered area vehicle parking shed and support equipment. Additional pavement and security fencing, along with periphial utilities support, is needed in the immediate vicinity of Bldg 1203. Bldg 2316 needs minor modification to meet the requirements of the weather flight. The AFRES DP function is located in Bldg 1213 and will be displaced requiring some minor relocation work for this function. IMPACT IF NOT PROVIDED: Facilities will be poorly configured resulting in mission impairment and health and safety hazards. Vehicle parking will be on grass and mud when it rains creating an environmental issue. Equipment

TOTAL REQUEST (ROUNDED)					890
10. Description of Proposed Construction: Construct one floor over existing structure in the north side of the anechoic chamber. Work includes steel framing, concrete floors, masonry walls, and interior partitions. Also modify and extend the utility/mechanical systems for a complete and useable facility. Air Conditioning: 40 KW.					
11. REQUIREMENT: 19,930 SM ADEQUATE: 15,075 SM SUBSTANDARD: 1,245 SM PROJECT: Base Closure- ADAL Anechoic Chamber REQUIREMENT: Additional specialized space is required to house the relocation of the Real-Time Electromagnetic Digitally-Controlled Analyser and Processor (REDCAP) to test electronic combat and integrated avionics systems for advanced aircraft such as the F-22, F-117, and C-17. Rooms must be able to house target simulators and other sophisticated electronic equipment used to simulate hostile enemy airspace and equipment without compromising data collection or security. CURRENT SITUATION: There are no specialized rooms or support space in the anechoic facility for the relocation of REDCAP. The existing rooms in an adjacent facility would fragment the workforce and lack required security and shielding. After weapons system components are individually tested in special rooms in the adjacent facility, they are then transferred to the anechoic chamber for integrated testing on full scale aircraft. Transferring the components to the chamber requires additional security measures and compounds scheduling conflicts. Electronic test conditions in both the specialized rooms and the anechoic chamber can not be tailored for each weapon component because there are more components being tested at any one time that there are specialized rooms. Ferrying components

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U. S. Air Force/Reese Air Force Base, Texas**

**Closure Package:** The Commission recommended Reese Air Force Base, Texas, for closure. The Aerospace Guidance and Metrology Center depot will be closed; some workload will move to other depot maintenance activities including the private sector.

**One Time Implementation Costs:**

Military Construction:

FY 1997

<u>State/Installation</u>	<u>Project Title/#</u>	<u>Fiscal Year of Award</u>	<u>Amount (\$000)</u>
Texas/Laughlin	Add to CDC/MXDP973003	1997	350
Mississippi/Columbus	T-37 Main Hanger/EEPZ973006	1997	1,100
Total 1997			1,450

Conjunctively Funded Construction: N/A

Family Housing Construction: N/A

Family Housing Operations: N/A

Military Personnel - PCS: \$0.5 Million

Operation and Maintenance: \$11.6 Million

Other Procurement: N/A

Revenues From Land Sales: N/A

Environmental: \$18.0 Million

**Savings:** Savings identified are generated by no longer operating the installation. They are included in exhibit BC-02 for display purposes only, and will be realized in other Air Force appropriations.

**Reese AFB, Texas Package**

TOTAL REQUEST (ROUNDED)				350
10. Description of Proposed Construction: All work necessary to construct an addition to the Child Development Center (CDC). Concrete foundation and floor slab, masonry wall, roof to match existing structure. All necessary utilities, HVAC and fire protection systems, including installation of a fire sprinkler system. Landscaping and site improvements to match existing area. Air Conditioning: 11 KW.				
11. REQUIREMENT: 2,495 SM ADEQUATE: 625 SM SUBSTANDARD: 227 SM PROJECT: Construct addition to the Child Development Center (CDC) to accommodate increased population due to the closure of Reese AFB. Alter the existing facility as required for utilities and fire protection. REQUIREMENT: Closure of Reese AFB. An addition to the CDC is required to support the children of additional families assigned to Laughlin AFB due to the closure of Reese AFB. Based on the standards in AFH 32-1084, space will be required for an additional 20 children. CURRENT SITUATION: The existing CDC is undersized. The waiting list averages 30-40 children with a three to four month waiting period. To maximize the capacity of the existing facility, the facility currently operates at the minimum space standard of 35 SF/child versus the standard of 89 SF/child. IMPACT IF NOT PROVIDED: The already long waiting list for the CDC will get longer, forcing families to find more expensive and possibly substandard child care services in the local community. ADDITIONAL: Funding is to be provided from the Base Closure Account. This project meets the criteria/scope specified in Part II of Military Handbook 1190, "Facility Planning and Design Guide".

10. Description of Proposed Construction: Reinforced concrete footings, foundation and floor slab, structural steel frame, insulated walls and roof, fire protection system, utilities and necessary support. Area includes hangar space and administrative support. Provide extension of existing aircraft access pavement. Air Conditioning: 70 KW.					
11. REQUIREMENT: 950 SM ADEQUATE: 0 SUBSTANDARD: 0 PROJECT: Construct a T-37/T-1A aircraft maintenance hangar. REQUIREMENT: Closure of Reese AFB. A facility of adequate size and configuration is required to provide three additional covered maintenance bays for the relocation of 10 T-37s and 16 T-1As to Columbus AFB (2 bays for T-37s and one bay for T-1s). CURRENT SITUATION: Columbus AFB has a deficiency of maintenance hanger bays prior to the realignment from Reese AFB. The realignment will compound the deficiency. IMPACT IF NOT PROVIDED: Required maintenance cannot be performed, which will negatively impact flying training. ADDITIONAL: Funding is to be provided by the base closure account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide".

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U. S. Air Force/Program Management**

**Closure Package:** This exhibit displays overall one-time implementation costs which are not categorized by closure base, and combines the costs of program management as a result of the recommendations of the Defense Base Closure and Realignment Commission. These costs generally include military construction, planning and design, environmental studies, and headquarters management requirements. In 1996 and 1997, program management requirements are limited to salaries, TDY, and overhead expenses.

**One Time Implementations Costs:**

Military Construction:

FY 1997

<u>State/Installation</u>	<u>Project Title/#</u>	<u>Fiscal Year of Award</u>	<u>Amount (\$000)</u>
Various Locations	Planning and Design/BCL97RDA	1997	5,543

Total 1997	5,543
------------	-------

Conjunctively-Funded Construction: N/A

Family Housing Construction: N/A

Family Housing Operations: N/A

Operation and Maintenance: \$4.4 Million

Other Procurement: N/A

Revenues from Land Sales: N/A

Environmental: \$2.7 Million

**Savings:** Savings are included in exhibit BC-02 for display purposes only, and will be realized in other Air Force appropriations.

**Program Management Package**
